## About Us

With the increasing standards of the Indian society, **Colors Home Appliances Private Limited**, has come up with an innovative idea of supplying better convection cookware products which are especially designed in diverse colors, different shapes, and unique patterns in order to match the living standards of the people. Our products such as **Enamel Cookware**, **Enamel Cookware Utensils** and **Vitreous Enamel Utensils**, are widely demanded in the Indian market because they are excellent heat conductor and distributes heat evenly.

Along with this, they are also demanded among users due to their non sticky and non-scratch sensitive nature. Engrossed as an eminent Manufacturer, Supplier and Exporter of these stylish cookware products, we are highly known for providing all our products at reasonable price with prompt delivery. Established in 2016, with the aim to be a brand name in the industry, we follow ethical business practices with good core values to make firm relations with our clients. With the support of our respected mentor, we are growing strength-by-strength in the cookware industry to attain supremacy.

We are recognized as the leading manufacturer of Curry Pots/casseroles, Royal Handi, Shahi Handi, Karhai, Sauce Pan, Tadka Pan in all sizes & different colours. These products are manufactured utilizing high-grade mild steel and sophisticated technology at our manufacturing unit. Perfectly, embedded with vitreous enameled exterior, which makes our range suitable to be used in induction cooking and can be heated directly on gas & stove for preparing food. Moreover, our range is used for cooking and serving pulses, koftas, curries, kheer and other delicious food.

## Infrastructure

We own a modern infrastructure, that is outfitted with all the required tools and technology. The infrastructural facilities are strategically developed and specialized in different units such as production, quality control, marketing and R&D. The departments are well unified to fabricate best quality of Vitreous Enamel Cookware and Enamel Cookware Utensils. In order to satisfy our customers with on time delivery of these products, we have set up automated machines which produces large amount of goods in a short span of time. After the manufacturing process, our products are stored in the warehouse to keep up with the standards of quality.
